

Why you should become a member:

If the park was ever sold, as a member of the association you have first right to buy the lot you have. Or the association can buy the land and manage it as an association. The owners cannot sell it without first contacting the association. If we do not have an association, none of this is possible.

Provides you with a group to express your community concerns to and then the association can work with the owners of White House Beach for you!

Group Membership in the Delaware Manufactured Homeowners Association (DMHOA). As a member of White House Beach Homeowners Association you are then represented at the state level. The state association communicates with state legislators regarding our thoughts on bills that impact laws established for Mobile Home Parks.
